

Wasatch County has many fine schools.
Wasatch High School pictured above.

The "Heber lamb" has long been famous as top choice for "the block."

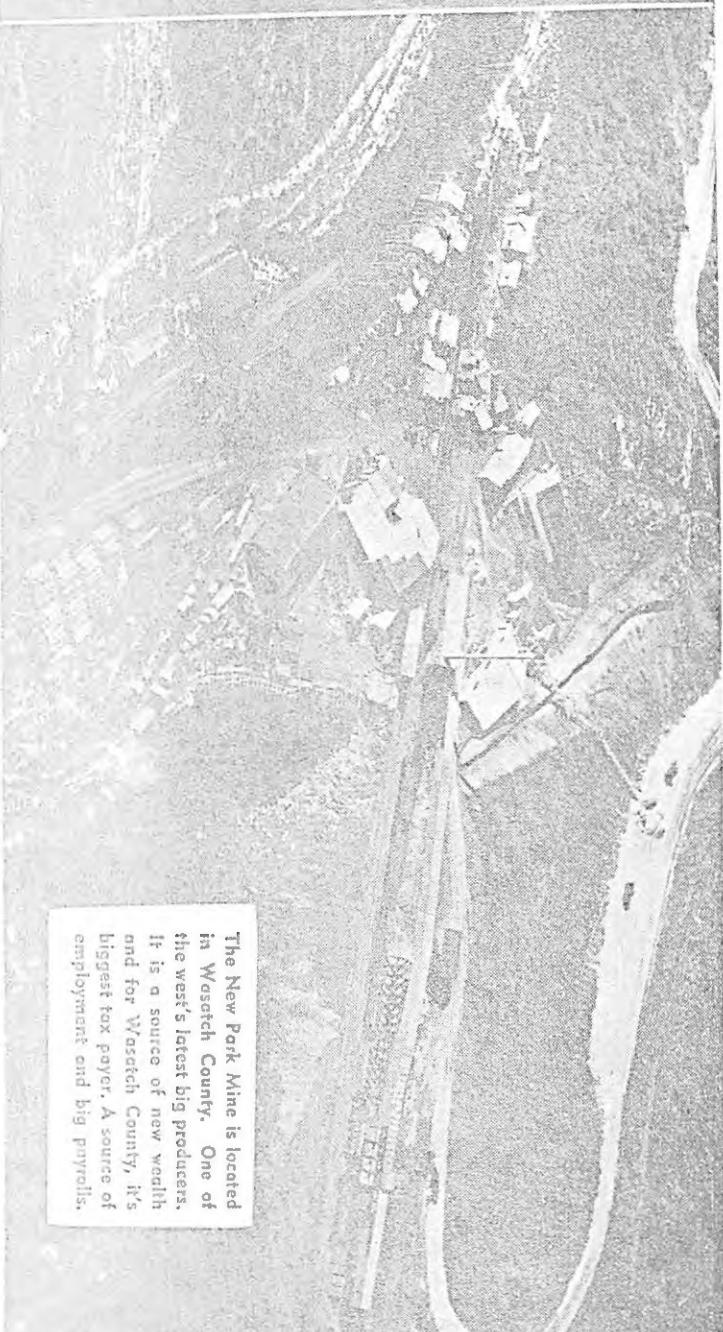

Wasatch County, situated in the rich, fertile mountains of north-eastern Utah, has taken full advantage of this natural wealth of farm and grazing land. Using these natural resources conservatively and wisely, Wasatch County farmers, dairymen, cattlemen and miners have produced an amazing wealth of fine crops, dairy products and minerals.

Aerial View of the Deer Creek Dam. Located entirely in Wasatch County, it furnishes water for Utah County and the Greater Salt Lake Metropolitan area.

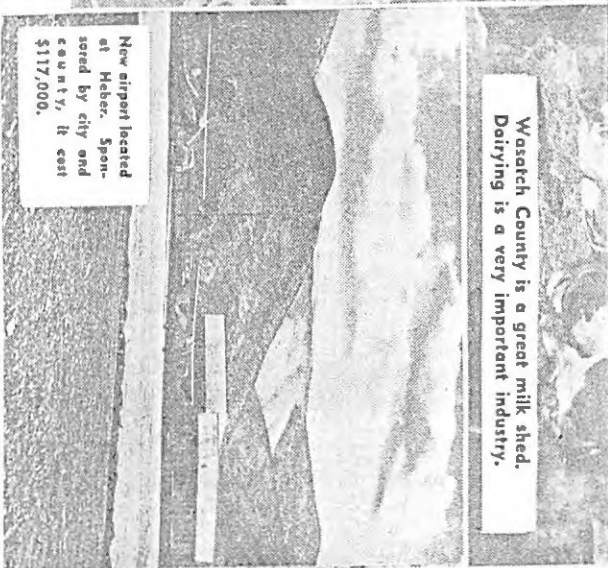

Creating new wealth for the world.
Note vein of ore directly in front of this miner working in the New Park Mine.

The great wealth of the County is confidently above the average and its peoples are proud of the modern schools, churches, homes and other civic and community enterprises that have grown out of their efforts and sacrifices.
The towering mountains, scenic wonders of the world, are havens for sportsmen who like fishing in the swift streams and hunting in the

Wasatch County is a great milk shed.
Dairying is a very important industry.

New airport located at Heber. Sponsored by city and county, it cost \$117,000.

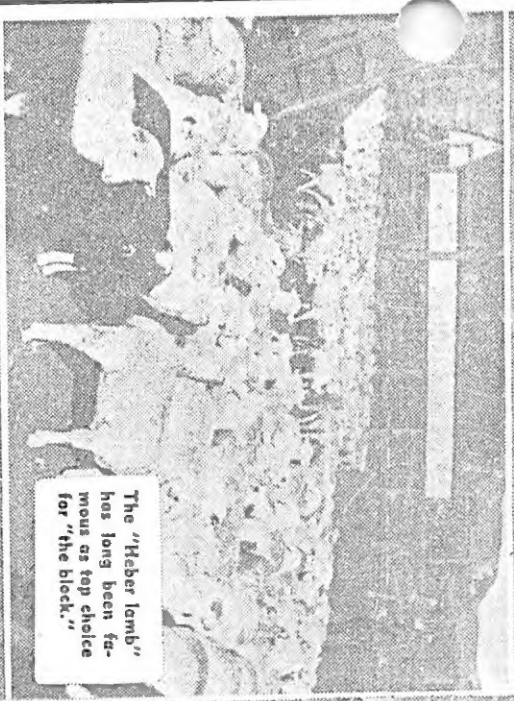

The New Park Mine is located in Wasatch County. One of the west's latest big producers. It is a source of new wealth and for Wasatch County, it's biggest tax payer. A source of employment and big payrolls.

canyons and high mountain peaks. Another phenomenon of nature, the mineral hot springs or "hot pots" provide unusual and very satisfying swimming facilities.
Wasatch County's natural grandeur offers much to its people and the taking of motion pictures here is backed on with considerable fees.

Welcome to Utah's most promising county—

WASATCH COUNTY
